PROFESSIONAL SUMMARY

Creative and detail-oriented Business Information Technology (BBIT) graduate with experience in digital communications, content creation, social media management, website administration, and community engagement. Skilled in translating complex ideas into accessible content, managing digital platforms, and collaborating across teams to deliver meaningful communication strategies.

PROFESSIONAL EXPERIENCE

Communications Strategist Appleton Schools – Nairobi December 2025 – Present

- Develop, write and manage digital communications across social media platforms, supporting institutional visibility and stakeholder engagement.
- Prepare newsletters, reports, promotional materials, website content and other internal and external communications.
- Manage and update the school's website, ensuring content accuracy, accessibility and functionality.
- Monitor digital communication performance, analyse engagement metrics and prepare reports to inform communication strategies.
- Maintain content calendars and coordinate communication activities across departments to support organisational priorities.
- Support the planning and communication of institutional events, admissions campaigns and community engagement initiatives.
- Produce and edit photography and video content for institutional communications and digital platforms.
- Manage email marketing campaigns using Mailchimp and provide technical assistance to support digital operations.

Back End Developer Intern Isentry Technologies – Remote September 2025 – November 2025

- Developed and maintained RESTful APIs using Python, FastAPI and SQLAlchemy for TeamIQ, an intern performance and growth tracking platform.
- Implemented authentication systems and role-based access controls to support secure application functionality.
- Assisted in database design, testing, debugging and deployment activities.
- Prepared technical documentation and contributed to collaborative development processes within a remote team.
- Worked collaboratively with team members to troubleshoot issues and support project delivery.

ICT Support Intern Postal Corporation of Kenya – Nairobi May 2024 – July 2024

- Provided frontline technical support for hardware, software and network-related issues across departments.
- Assisted staff with digital tools, computer systems and communication technologies.
- Maintained ICT inventories and technical documentation to support effective resource management.
- Assisted with system maintenance, equipment configuration and troubleshooting.

- Supported network connectivity and day-to-day technology operations.
