PROFESSIONAL EXPERIENCE

IT Support & Communications Strategist

Appleton Schools, Nairobi, Kenya (Hybrid)

December 2025 – Present

- Designed and developed the school website from scratch, delivering a fully functional, responsive site aligned with brand and operational requirements.
- Provide first-line ICT support resolving hardware, software, and network connectivity issues across departments.
- Create graphic design assets including posters, banners, and digital marketing materials using Canva.
- Manage social media platforms, developing content strategies that drive engagement and brand awareness.

Back End Developer Intern

Isentry Technologies, Remote

September 2025 – November 2025

- Contributed to backend development of TeamIQ, an intern performance and growth tracking platform.
- Built and maintained RESTful APIs using FastAPI, SQLAlchemy, and PostgreSQL.
- Implemented user authentication and role-based access control (RBAC) and designed database schemas.
- Participated in testing, debugging, and deployment within a fully remote Agile team.

ICT Support Intern

Postal Corporation of Kenya (PCK), Nairobi

May 2024 – July 2024

- Provided frontline ICT support for hardware, software, and network-related issues.
- Installed, configured, and maintained computers, printers, and ICT equipment across departments.
- Managed ICT asset inventory and maintained accurate technical documentation.
- Assisted with network connectivity and supported staff adoption of digital tools.
